DBA 805 and DBA 820 are prerequisites for all other courses and must be taken separately, DBA 805 is a prerequisite for DBA 820. DBA 800 must be taken in the first year of study. No DSS courses may be taken until at least DBA 805, DBA 820, 2 core courses and QSM 825 are completed. If milestones are not reached for DSS 905, 910 or 920, then students will be issued the grade of IP (in progress) and must enroll in DSS 950/951/952 to complete the milestones associated with that course.
